WW II MILITARY MINIATURES SERIES

Quality beyond the ordinary in creating tanks, vehicles and artillery, we cut no corners. No facet is too small for special attention. Photoetched parts are used liberally to highlight details rarely exposed in other kits. Accessories like ammo boxes, artillery shells, oil drums, even small pails, are perfect.

Only life's figures are more convincing and while selection is crucial to your enjoyment, quality is also an integral part of every MiniArt kit. We've raised the art of figure-making to a new level. We begin with sketches that craft a framework for poses and positions. Then, as part of the molding process, our figures are sculptured by an artisan adept at capturing each facial crease and nuanced detail. These figures are so real you can almost feel their emotion. Marching, resting, working and battle poses are natural and in synch with anatomical accuracy. Only reality's figures are more believable.

Our "POST WAR" and "MODERN" periods series of kits are designed to bring you all of most exciting innovations and technological advances since WWII.

From 1945 to the present day the world has changed and conflict has come and gone. This series of kits will include modern tanks, cars, trucks, AFV's and figures beautifully rendered and with scrupulous attention to detail. The aim here is to provide accurate, well engineered and excellently presented kits that will fascinate, excite and engage so as to immerse the modeller into the subject.

MINIATURES SERIES

New ways. Miniatures series presents civilian subjects. Complete package everything you need for an accurate model in one box the series is filled up with models from different years and contains various sets of trucks, cars, trams, figures etc. Without any doubts we are keeping high level of our models using up-to-date moulding technology. Unique nonmilitary subjects of the Miniatures series give new ways for modelers to enrich their imagination.

BUILDINGS AND ACCESSORIES SERIES

Advanced techniques deliver detail and convenience. In this original series, the art of injection molding and the latest vacuum forming techniques merge to add a new dimension to your hobby. Vacuum formed roofs and walls, mesh with highly detailed injection molded windows, doors, stairs, gates and other architectural components to create exacting replicas. In contrast to ceramic and resin, plastic is more affordable, lightweight and stronger.

DIORAMAS SERIES

A new dimension in military modeling... Diorama kits.

Never before available in plastic, our Diorama Series breaks new ground in modeling innovation. Each kit contains buildings, accessories and matching, textured bases to form a complete diorama. The creative flourishes are everywhere, like advertising on a street kiosk, period lamp posts, directing signs and more. The realism is exceptional. To complete the dioramas, some kits contain military figures in varied poses, including marching, resting and fighting. Their weapons, armored vehicles and accessories are included.

AIRCRAFT MINIATURES SERIES

MiniArt's new Aircraft Miniature series is ready to take off - Vertically! With the launch of our new series of 35th scale Helicopters from the WWII Period, the «41001 FI 282 V-6 Kolibri» we are stating our intent - to create aircraft in scale in the highest possible quality both inside and out. That same detail that we have brought to our tanks and vehicles can be expected in our innovation of new models in injection moulded plastic. Every good aircraft diorama needs people to populate it, and we will provide not only the aircraft, but the crews to fly them, man the guns and aim the bombs, the mechanics, ground crew, accessories and even ground service vehicles to service them. This combination of aircraft and aviators, planes and people, will be one of most exciting series yet...

HISTORICAL MINIATURES SERIES

New choices the variety of ideas. Modelers, gamers and hobbyists have never had the opportunity to work with these choices of subject matter in these chosen timeframes. MiniArt has created, in plastic, a series of historically accurate stone fortress, castle, soldiers, weapons and accessories from the 4th through the 15th century and beyond. The range of multicolored kits creates an opportunity to build up them in both ways: painted and unpainted.
